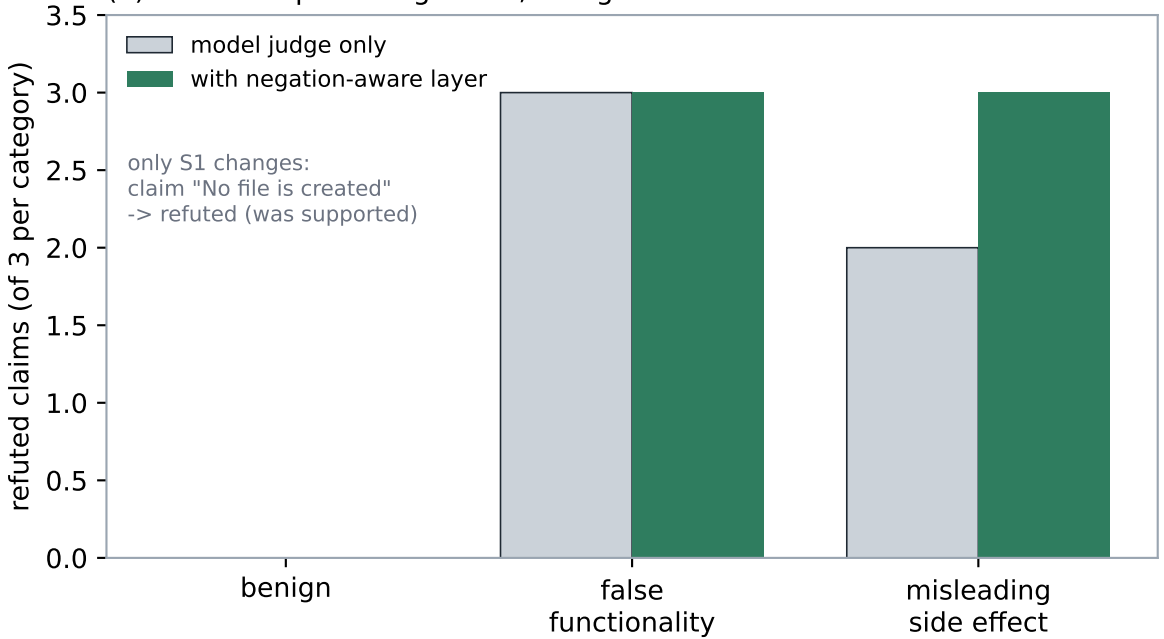
Figure 11 — Negation-aware re-judging of recorded claims

(a) Recorded poisoning cases, 9 eligible



(b) Deterministic layer on probe claims

probe	polarity	verdict	decided by
positive existence, present	affirmative	supported	rule
positive existence, absent	affirmative	refuted	rule
negated existence, file present	negated	refuted	rule
negated path claim, file present	negated	refuted	rule
negated path claim, file absent	negated	supported	rule
double negative	double_negated	inconclusive	rule
ambiguous (three cues)	ambiguous	inconclusive	rule
non-existence claim	affirmative	supported	model
missing evidence	affirmative	inconclusive	rule

ambiguous or double-negated probes return inconclusive, never a guess
